The Story So Far...

The FoNS Residential Programme: Facilitating the development of person-centred cultures

28 April – 2 May 2025

The Residential Programme, along with all FoNS programmes, is underpinned by FoNS's ethos:

- Collaborative and participatory ways of learning and being
- Learning in, from and through the workplace
- Reflective practice
- Facilitative approaches
- Working with values and beliefs
- Understanding person-centredness, valuing all
- Recognising the impact and importance of workplace culture

Thus enabling people to be the nurse or practitioner they wish to be, working authentically and building momentum to create more caring workplace cultures. We know it works, and have seen the impact of the programme time and time again.

If you'd like to be part of this movement, please do get in touch soon, places are very limited. Visit [the FoNS Residential Programme](#) pages.

Resilience-based Clinical Supervision: The story so far

A run-down of the first 17 cohorts of our NHS England-funded Resilience-based Clinical Supervision for Social Care, January to August 2024. Open to registered nurses and nurse associates in social care, anywhere in England and fully funded!
